

St John's Regional College is a School which operates with the consent of the Catholic Archbishop of Melbourne and is owned, operated and governed by Melbourne Archdiocese Catholic Schools Ltd (MACS), where formation and education are based on the principles of Catholic doctrine, and where the teachers are outstanding in true doctrine and uprightness of life.

Purpose

'The digital world is characteristic of the contemporary world...the web and social networks have created a new way to communicate and bond...Yet to understand this phenomenon as a whole, we need to realise that, like every human reality, it has its share of limitations and deficiencies.'

Pope Francis, *Christus vivit*, 2019.

Access to digital technologies, including the internet, is provided to students and staff at St John's Regional College because digital information and communication are important mediums for contemporary learning and teaching and administration. Within Melbourne Archdiocese Catholic Schools (MACS), a range of technology platforms, such as the Integrated Catholic Online Network (ICON) provide access to a suite of digital technologies. The information, communication and learning technologies used by students in classrooms will be appropriate to the age and development of students. These technologies are used to support professional learning and the development of networks within and between St John's Regional College and other schools for professional learning. They also enable effective communication with our parents and allow them to participate in their children's education, working in partnership with teachers.

In using and managing internet and network services, students and staff at St John's Regional College are expected to respect the rights and privacy of all persons. They are called upon to respect the dignity of every human person. St John's Regional College, along with parents in our community, educate students in the use of information and communication technologies to assist them to become responsible users, creators and publishers in the digital environment.

Rationale

The College is committed to ensuring students, staff and parents have the opportunity to use ICT to educate for excellence. We are committed to ensuring that use of ICT supports staff and student learning and does not impact on the safety, wellbeing and rights of all members of the community.

Purpose

To help educate a community where excellence is promoted, we aim to recognise the importance of the use of ICT and emerging technologies and to provide the technology to staff and students to support this. Our aim is to provide an educative environment by establishing an eSmart culture which is in keeping with the values of the College, legislative and professional obligations, and the community's expectations. Within this context, the objectives of these guidelines are to ensure the smart, safe, responsible use of ICT within the College community. This policy outlines the conditions applying to the use of all College ICT and emerging technologies and behaviours associated with safe, responsible and ethical use of technology. Authorised Users are required to comply with this policy and Agreement.

This policy outlines the appropriate use and management of digital technologies such as the internet and network services at St John's Regional College in accordance with legal and moral requirements and expectations.

Scope

This policy applies to members of the St John's Regional College community in their use of digital technologies. It applies to all computers, devices, internet and network services, information and communication technologies, applications, and systems provided, operated and managed by the school. This policy does not apply to the curriculum content or the expected standards of usage by students or staff in the school. The curriculum and teaching practices and pedagogy are outlined in documents related to our learning and teaching programs.

Definitions

Computer is either a desktop or portable laptop device that performs processes, calculations and operations based on instructions provided by a software or hardware program.

Device refers to a unit of physical hardware or equipment that provides one or more computing functions within a computer system. It can provide input to the computer, accept output or both. Typical hardware includes a computer mouse, speakers, printer and microphone.

Email means the system that enables users to send data over the internet using computers and mobile devices.

ICON means the Integrated Catholic Online Network which is used to deliver shared services for educational and administrative purposes across Catholic schools.

Internet means the system of interconnected networks that connects computers for data transmission and storage.

Intranet refers to a local system of computers enabling students and staff to communication and share information within their school community.

Mobile devices refers to (but is not limited to) mobile phones, PDAs and portable storage devices.

Network services means the facilities and resources located on and delivered via a computer-based network, including communication systems, internet and intranet services, mobile devices, electronic mail, web services, printer services, database services, back-up services, file services and network management services.

Parents includes parents, guardians and carers.

Social networking means web-based services that allow individuals to create their own online profiles and communicate with each other by voice, chat, instant message, image sharing, video conference and blogs in a virtual community.

Staff means salaried, voluntary and contracted persons.

Students means those students enrolled at St John's Regional College.

Website is an internet based page or series of pages grouped together and managed by a person or group.

Principles

The use of digital technologies within our school by staff and students at St John's Regional College is underpinned by the following principles and understanding:

- that digital technologies provide valuable opportunities for staff and students to collaborate, connect and

- create with peers, colleagues, experts and the wider community
- that online behaviour will at all times demonstrate respect for the dignity of each person in the community
- users will behave in a manner that is ethical when using the internet and network services (even for personal communication)
- the Catholic beliefs and ethos of the school, and professional expectations and standards required by teachers are demonstrated in the way the technologies are used
- inappropriate online behaviour, including cyberbullying, will not be tolerated.

Policy

Internet and Network Access

Access to internet and network services are provided by MACS to staff and students of St John's Regional College for educational and administrative purposes. From time to time, other MACS policies and requirements in particular schools may result in restrictions.

Access rights assigned to students and staff at St John's Regional College will be determined by the principal and may vary as educational and administrative purposes change.

Students and staff at St John's Regional College may not use the internet and network services provided for commercial purposes, either offering or acquiring goods or services for personal use. The services cannot be used for political lobbying or proliferation of unnecessary communications.

Expectations of users

All students and staff at St John's Regional College are required to use the internet and network services in accordance with this policy. Any use of devices or services that may be questionable, offensive, and controversial or against the Catholic ethos is unacceptable. This includes personal communication with students on matters not related to curriculum or education.

These standards apply whenever St John's Regional College equipment or communication lines are used, including use from home or other non-school location and when a private account is used.

Non-compliance with this policy

Disciplinary action may be undertaken by St John's Regional College against any student or staff member who is found to be inappropriately using the provided internet, network services, device or mobile device. The principal will determine the disciplinary measures to be undertaken in accordance with other policies and guidelines. These measures may be outlined in staff handbooks or the Acceptable User Agreement for students used by St John's Regional College.

Duty of Care

St John's Regional College actively supports community access to a wide variety of information resources. We encourage community members to be able to acquire the knowledge and the skills to analyse and evaluate the use of these resources. It is expected that students, staff and parents will use ICT resources of the College in a responsible manner at all times and ensure care of all the resources.

St John's Regional College will provide instruction to students in online personal safety issues, including inappropriate sites, stranger danger, cyberbullying and scams. St John's Regional College will prepare staff to deal with these issues.

Monitoring

Students

Online activities may be monitored or reviewed to assess network efficiency, examine system security and to investigate alleged breaches of this policy.

Staff

An authorised person (e.g. a principal, a regional manager or other MACS staff member can monitor the use of MACS ICT resources. Server logs may also be used in an investigation of an alleged breach of this policy.

Security

To minimise risk to MACS information and communication networks from viruses and intrusions, current virus screening software is to be activated, and where appropriate, passwords are to be used by staff and students of St John's Regional College. Firewalls are to be maintained. The management of system protocols and configurations are the responsibility of the staff authorised by the school or MACS. Non-authorised staff and students are not permitted to have access to these levels of system management.

Email

Email service is provided for educational and administrative purposes. Staff and students at St John's Regional College must identify themselves appropriately by using a signature block at the bottom of the email message that includes their name, school phone number and postal address. St John's Regional College advises students and staff that they may be held accountable for the email they create and distribute using the network.

Websites

St John's Regional College may create, or have created, a website with the approval of the principal. These websites must be established and maintained in accordance with MACS policies and guidelines and relevant legislation.

Social networking

Provision of social networking for students must be related to an educational purpose. This is at the discretion of the principal.

Acceptable Use Agreements

Student agreement:

I have read and understand the St John's Regional College eSmart and Acceptable Use of ICT Agreement Form I understand that if the College decides that I have broken any of these rules, appropriate action will be taken which may include loss of my network and/or internet access.

Students

St John's Regional College provides students and parents/guardians with the following:

- a copy of St John's Regional College's Acceptable Use Agreement
- a copy of this policy.

The Acceptable Use Agreement is provided in full for consideration by all signatories. The Agreement is to be signed by the student, parent/guardian and school representative before the student is given access to, and use of, a school's internet, network services and devices.

Staff

Staff are required to use the internet and network services in accordance with this and other policies. St John's Regional College provides staff with the following:

- a copy of this policy
- a copy of the Acceptable User Agreement.
